Organizes
National Conference

on

**“New Horizons in Commerce, Economics &
Management Science”**

DATE: 03RD SEPTEMBER- 2024

Dear Sir/Madam,

It gives me Pleasure in inviting you to participate in International Conference on “New Horizons in Commerce, Economics & Management Science” Organized by Department of Commerce & Economics, Anand Rao Dhonde Alias Babaji College Kada. In Collaboration with Mahesh Multistate Rural Credit Society Ltd. **On 03rd September-2024**

Scope of the Conference

Businesses are made successful when they are made with a great vision backed by strong strategies. These strategies are designed keeping in mind the business situation prevailing at that moment. It is often seen that due to changed conditions, strategies made may have to be redesigned and implemented. The years from 2019-2021 would go into history as this period had not just shaken small businesses but also larger ones. Businesses and corporate houses are struggling for sustenance, let alone profits. History shows that crises change institutions and permanently impact societies directly or indirectly. In the aftermath of a crisis, the world economy, global supply chains, and international trade cannot be expected to return to ‘what we perceived as normal’ pre-crisis. We may expect businesses to reconsider globalised production chains, and we may see trends of localization. Some business units have been forced to close or suspend operations due to depleted sales and lack of adequate cash flow. While some dropped a few underperforming products from their product line, others closed a few of their branches. The solution to these and many such problems lies in academics and research. Considering these critical events, the School of Contemporary Knowledge Systems (CKS) of CVV, is organizing an National Conference in collaboration with Maharashtra Gramin Bank Kada on “New Horizons in Commerce, Finance and Economics” on 03rd September-2024. Discussions at the conference will stimulate ideas on developing a sustainable society and empowering stakeholders. The conference would attempt to facilitate researchers worldwide to present their research work, expanding knowledge and insight into the significant challenges currently being addressed in the research. Research papers, case studies, and articles are invited from various inter-disciplinary areas and sectors for the conference. The conference aims at the following specific objectives:

INVITATION

commerce students by the department of commerce has been organizing a variety of activities which includes the lectures by eminent speakers and organization of workshop. Placement opportunities are provided through placement cell to all the students.
