### **ICT/Computing Skills**

In modern computer and IT world the higher education systems demands a quality education to grow exponentially in every sense and we have witnessed that the inclusion of ICT skills is absolutely necessary for an innovative teaching and learning process. ICT skills significantly contribute in better teaching methods for the teachers and an improvement of students learning. The introduction of ICT in the college has had significant impact on the teaching process especially in dealing with key issues of access, equity, management, efficiency, pedagogy and quality in education field.

Main attributes of ICT skills includes

- ❖ The ability to use computers and its tools
- ❖ Being able to use some basic computer software's like Word documents, excel sheets and PowerPoint presentations.
- ❖ Organising and analysing information using specific software's.
- ❖ The ability to communicate and interact with other ICT users through the use of internet and email.
- ❖ Create and engage with digital information systems for specific tasks.

For above purpose our IQAC with the help of all subject departments conducted ICT skills based tools handling programme and participate faculty members and their students in hands on training. The following some programmes and faculty members used ICT tools for preparation of ICT skill materials.
