Solid & Liquid Waste Management

Solid waste generation and its management is a flaming problem in the all over world. Rate of generation of solid waste is very high and however, we do not have satisfactory technology to manage the generated waste. Solid waste refers to all non-liquid waste. Solid waste can create significant health problems and a very unpleasant living environment if not disposed of safely and appropriately. Thus, it is essential to manage the solid waste appropriately to reduce the load on waste management system. Students and faculty regularly advised to reduce waste at lower extent. The solid waste is regularly collected by the garbage town council. The college has a vermin- composting unit. Garden waste & Kitchen waste from the canteen and hostel as well as different corners of the college. Dry waste mainly leaves litter is allowed to decompose systematically over a period. Then it is brought to the vermin-composting unit.

The College has constituted a green audit committee for it. The committee sets out to identify the types of waste, category of waste, how to collect handle and dispose. Primarily dry waste is collected in dust bins kept in the corners of college.

E- Waste Management

Anandrao Dhonde Alias Babaji Mahavidyalaya, Kada, is having Arts Commerce and Science faculty in the campus. There is slight use of chemicals and hazardous things in the college campus for practical purposes. Hazardous waste disposal is in active mode in College campus, so that college campus is free from e- waste. Electronic waste or E- Waste is describes discarded electrical or electronic devices. It contains many toxic and hazardous ingredients. Such as heavy metals like lead, cadmium, and Murcury, PCB, BFRs have the potential to cause environmental pollution and pose health hazards when processed, recycled or disposed off. Our Mahavidyalaya is working towards generating minimal e-waste by reusing it. Regular maintenance of electronic equipment and computers ensures longer life. E-waste room is provided for the collection of the e-waste generated in college campus, which is given to the authorized agency for recycling and disposal. All the miscellaneous e-waste such as CDs, non working laboratory equipments, computers, monitors, printers, batteries, fluorescent bulbs, and electronic items are collected from every department and office and delivered for safe disposal. It is also used in practical purposes for science and Electronics departments. Useful parts of electronic gadgets like hard dist CPU Monitors, mobile phone chargers, CD drive etc. have been removed from the old computers for reuse. After suitable time, the same is handed over to the authorized hazardous waste collection.

We have MOU with **Shree Computers, kada** who personally visits our college time to time to repair and maintain electronic equipments. The buyback system is followed for some of the equipments beyond repairable conditions. The Institution is working on 'use repair and reuse of electronic equipments' and spares. Old monitors and CPUs are repaired by technicians. At the end spare parts when its usefulness comes to an end those are discarded, donated or given to recycling. However "e-waste" is the generally used EPA considers e-waste to be a subset of used electronics and recognizes the natural value of these materials

that might end up in a landfill or reprehensively disposed in a protected dump site. Empty toners, cartridges, outdated computers and electronic items are given to **Shree Computers, Kada** and insured their safe recycling. Solving the E-waste Problem is a multi-stakeholder initiative and a global platform addressing the e-waste problem. Our aim is to develop scientific methods for e-waste issues within own organization and provide global, objective and scientifically-based information relevant to addressing the global problem of e-waste.

विषय :- स्वच्छतेकरीता केलेल्या सहकार्या बाबत...

महोदय,

आपण आमच्या महाविद्यालयातील ओला कचरा (Liquid Waste) व सुका कचरा (Solid Waste) व्यावस्थापनाच्या दृष्टीने आपल्या ग्रामपंचायतीद्वारे येणारी घंटागाडी आम्हास नियमित उपलब्ध करून दिली. तसेच महाविद्यालयाच्या स्वच्छतेसाठी ग्रामपंचायतीकडून वेळोवेळी स्वच्छता कर्मचारी पाठवून सहकार्य केले.

त्याबद्दल आम्ही आपले आभारी आहोत.
